It has been a great day for the South, a section of the commonwealth of gold, famous for its audacity, progress and substantial and political chievements, and it was a great and glorious day for that strong, masterful, splendid gentleman who is tonight the nominee for an office which he declared to the listening and applauding thousands of his fellow-citizens today, he would rather have than be President of the American republic

AN INSPIRING SCENE. The scene was inspiring, and the man was in himself an inspiration. The colors of the flag of glory are domed overhead in graceul lines like a gigan-tic inverted lily. All about the canvass walk of the monster tent that has been set up within a great barnlike area to serve as a political wig-wam there glow the stars that are in a field of blue, and the escutcheons of the States of the Union. Behind the speaker there look into the faces of the delegates portraits of the emancipator, America's martyred hero of blessed and immortal nemory; of Grant, the gallant captain who led our boys in blue through cenes of slaughter to magnificent victory, and of Uncle Billy Sherman, who should serve to hold them to great auditorium there is pictured upon the wall a quintette of heroes, Farragut, Dewey, Miles, Sampson and Schley, whose names are a heritage of glory to their country, and whose leeds are part of that country's ever lasting story of valor. It was amid such a scene as this that the representatives of the Republicans of Cali-

The chairman calls for that prince of orators, Gen. W. H. L. The house wakens up, the audience stirs in its seat, and prepares to listen, for when Barnes speaks there always something to listen to besides a mere wobble and waste of words. The famous speaker pays a tribute to the glories of the Repubican party; he apostrophises the flag, whose stars shine like torches immortal in the midnight sky;" he makes an appeal for the retention of every rod of soil wrenched from the cruel hands of Spain by the valor of our fighters on sea and land; he sends some stinging shafts of sarcasm in the direction of Maguire and the Pinto party that makes up his ragamuffin political army, and closes with a pero ration that is the embodiment and em-

THE PLATFORM.

The pronunciamento of the great party of war and peace was given close attention, as the secretary voiced its ringing phrases, and the delegates applauded them to the echo. To be sure, the committee that sat up all night hatching out a platform, sawing off planks, throwing planks into the waste-basket and planing down planks so the blooming things will fit, had also to insert one fool plank, hat particularly foolish of fool planks which recommends to political candidates the placing of the totem of the Typographical Union on their printing, thus casting a dornick at the millions of untrammelled American citizens who manage to go through life without having to fawn about the doors of conventions in order to secure patron age that they cannot get on their merits as craftsmen. But even Republican conventions are not insured against making mistakes, as may be shown more than once ere this body and its offshoot conventions adjourn sine die. The reading concludes. There is a feeble effort to change a word in one of the planks of the platform, and narched to the sea and fastened a the effort fails. A motion to adopt is hawser to the seceding States that carried and adopted, and now for the

Union, while in another part of the NOMINATIONS FOR GOVERNOR. Timothy Guy Phelps of San Mateo walks down from under a banner that tells what county that gentleman hails from to nominate Pardee of Alameda for Governor. Immediately there is the rooting of the rooters, those noisy youths who traveled all the way from Oakland for the express purpose of nominating a man for a high office y the voltage of noise. The nominatng speech is commonplace, mediocre, weak. It does not evoke enthusiasm; t does not help the Pardee cause one ota.

THE GAGE BOOM:

Then there comes the boom of the road Gage boom. Frank F. Davis of Los Angeles advances to the platorm to place the winsome and wining young warrior from the South before the people. With the graces of smooth and multifluous speech, Mr. Davis voiced the virtues of the winner from Winnersburg, and at the mention of the name of Gage, the delegation from Los Angeles set up a shout that sent the wild echoes flying. Flags were waved and a scene of enthusiasm ensued that was a presage of an assured victory.

A delegate from San Diego makes a hit in seconding Gage's nomination by an allusion to "Bryanites, silvertes and calamityites." Under the banner of old Sonoma, Allen B. Lemmon stands up and seconds the name of Gage. Charles W. Seamans of Los Angeles attempts to follow suit by reading an evidently badly-written speech, but the impatient delegates whistle the gentleman down the wind, and he is compelled to take his seat amid a riot of merriment.

Calaveras seconds Pardee through Solinsky of that county, and Fisher of Alameda chants the praises of the ex-Mayor of the Athens of the Pacific. Short of Fresno, in a neatly-turned and meaty little speech, swells the Gage chorus of encomium. Powers of San Francisco, tall, lithe, full-voiced and eloquent, declares that "this State is tired of Jim Buddism," and heaps scornful phrases upon the party of have their breakfast.

It is Dr. Pardee Alameda stands up and cheers, Across the hall the big handsome delegation from Los Angeles with flags in hand stands up and mingles its cheers with those that ripple across from meda. All over the hall the dele gates are getting up and shouting waving flags, cheering and applauding. The excitement is at white heat, and still beating. The chairman beats tattoo on the desk in an effort to restore order. He suc ceeds at last, and Dr. Pardee begins to speak. NEFF NOMINATED. Osborne of Los Angeles is called to the chair, and calls for nominations Lieutenant-Governor. Lloyd San Francisco, the bedfellow of the party platform, places Jacob Neff in the stand and is given three rousing heers. He names Frank McGowan of San Francisco for the second place on the ticket, and urges the delegates from his home city to do a bit of good politics by supporting his candidate. There s a menace in Knight's speech, and a touch of bitterness on his tongue. McGowan ascends the stage and makes a plea for himself. The roll call begins. A fight breaks out in the San Francisco delegation between A. B. Truman and Charley Morris, ocasioned by Knight's reference to a slate. There is a trifling eddy of exitement in the center of the hall, but it is suppressed in a moment, and the roll call goes on, and as Neff's vote

Barnes reviewed in cloquent terms the story of the acquisition of Louisiana, Florida, Texas, California and Alaska; and declared that we-made a mistake in not taking Cuba long ago. This assertion was greeted with applicance. There was less opposition today to acquiring territory outside of the United States than was ever manifested against extending our own boundaries on this continent. He denounced the Spanish government as the vilest government ever known. The general said the government should be compelled to retain whatever soil it obtained either by diplomacy or the act of war. The general's speech and sentiments evoked tremendous aplause.

[ASSOCIATED PRESS NIGHT REPORT.]

SACRAMENTO, Aug. 24.—The delay caused by the failure of the Platform Committee to report on time this morning was due to the fact that all the work had to be revised and pruned after the first draft had been prepared. Those in the confidence of the formulators objected to its great length and to some of the planks as not entitled to a place in a declaration of principles and to the absence of others so entitled. The committee thereupon went into executive session at 9 o'clock this morning and did not complete the task until 1:30 o'clock p.m. The convention was called to order at 1:50 o'clock p.m. The platform Committee not being yet ready to report, Col. Eddy of San Francisco filled up the time until 2 o'clock, when Reuben Lloyd appeared and reported the platform, which was read by one of the clerks. Its reading was frequently broken by applause.

Judge Frank Davis of Los Angeles placed in nomination Henry T. Gage. After reciting the achievements of the Republican party in ornafe phrases, Mr. Davis said that the man who was wanted at this time to head the Republican ticket must be one who is in harmony with sound money, protection and the Constitution. Gage was a man, he said, of broad sympathies, enjoying a lucrative practice. He never foreclosed a mortgage on a man's home during the whole course of his life. He is a stalwart Republican. He is a speaker equal to the task of overthrowing the sophistries of the enemy. He is independent of all corporate influences. No man would all corporate influences. Gage was nominated by acclamation. The convention rose as one, and waved flags, and gave three cheers for the nominee. The Alameda delegation marched up the central aisle behind the American flag, and sang a ditty dictated to Henry Gage, which was originally composed in honor of Pardee. The convention then broke into a delirium of cheering for Gage and everybody else. It was some time before the chair could restore order. The secretary was then instructed to cast the ballot of the convention for Henry T. Gage of Los Angeles for Governor. Objection being raised that the secretary was not a member of the convention, Edgar Preston was empowered to cast the 788 votes for Mr. Gage.

Pardee and Preston escorted Gage to the platform, and amid more cheering Gage, said no words could express his thanks for the honor of the nomination. EVENING SESSION.

At 8 p.m. the convention was called to order, and promptly proceeded to the business of nominating the judicial candidates. Nominating speeches were limited to two minutes. Judge W. H. Clark of Los Angeles was placed in nomination by Edward Meserve of Orange county.

nomination by Edward Meserve of Orange county.
Judge A. J. Buckles of Solano was nominated by T. B. Hutchinson of Napa. He reviewed the Judge's heroic career as a veteran Union soldier, and asked the convention to recognize the old soldiers. The seconding speech was made by Gen. Solomon.
Judge Stanley A. Smith of Sierra county was nominated by U. S. Webb of Flumas, who asked that a candidate be taken from the northern part of the Sitte.

Judge T. B. McFarland of Sacramento

Judge T. B. McFarland of Sacramento was nominated by Charles T. Jones of Sacramento. He urged that consideration of locality and personal friendship should cut no figure in the selection of candidates for the Supreme bench. ExJudge Van R. Paterson and Gen. A. L. Hart seconded the nomination.

George A. Knight placed in nomination Judge W. C. Van Fleet of San Francisco. E. C. Hart of Sacramento and Frank H. Short of Fresno and John F. Davis of Amador seconded the nomination.

John F. Davis of Amador seconded the nomination.

John F. Ellison of Tehama county was nominated by ex-Assemblyman J. F. Matlock, who infused such a spirit of good humor into the convention that it was loadh to have him stop. He said it was as natural for him to be a Republican as it was for a toad to hop. Mr. Matlock said the northern part of the State demanded recognition. He said: "We are entitled to be recognized." and made a play on the phrase until the delegates shook with laughter. Finally one of them rose and said: "I move that the gentleman be recognized."

Matlock rejoined: "I move a substitute that Judge Ellison be recognized."
The delegates laughed at this quick wit, and rose and cheered the speaker.
"We are entitled to be recognized," he again shouted, adding: "Why, it is nearly a third of a century since we had a candidate from the north who was elected a Supreme Judge, and he died a year afterward. I demand, Mr. Chairman and gentlemen, that we now be recognized."

The convention had a happy quarter of an hour with Mr. Matlock. The seconding speeches were made by Charles A. Garter of Tehama and Frieder.

WHEN GEN. MILES GETS BACK AGAIN.

There Will Be a Rattling Of Old Bones In the War Department-Alger Ready to "Crawl From Under"-Shafter May Be Courtmartialed.

Before the Miles's interview was made public, things were strained to the breaking point in the War Department, and this has broken the last string that held the investigation in check. If Gen. Miles stands by the interview credited to him, the first move to come of it must be a court-martial of Gen. Shafter for disobeying the orders issued to him by Gen. Miles. Miles says his orders forbidding

Cubans inside the American lines were disregarded, as were his orders forbidding American soldiers to enter any dwelling in Cuba. This last infraction. Miles will claim, was responsible for the spread of disease among the troops, and he is not alone in taking this ground. If Shafter is court-martialed for disobeving Miles's orders. Alger will not stand by him. This statement THE TIMES correspondent secured today from a man in the War Department who is in the confidence Department who is in the confidence of the Secretary. Alger will get out from under the crash in this particular by claiming Shafter was Miles's choice for this command. Anyway, lively times are coming as soon as Miles reaches Washington. OUR HEROES. "In behalf of ourselves and of the In behalf of ourselves and of the Republican party of this State, we thank those brave sallors and soldiers of the great army and navy of the republic that have achieved such brillant victories while marching behind the Star Spangled Banner, and who have made the American flag respected and honored in every quarter of the world. We congratulate the nation upon the fact that it has produced such leaders upon the ocean as Dewey, Sampson, Schley and Hobson, and upon the land as Miles, Shafter, Wheeler and Lawton, who have written their names upon the scroll of the history of the world as leaders excelled by none and equaled by few since the beginning of time. Their genius, however, would have been unavailing but for the valor and steadfastness to duty displayed by the sallors who, for many long months, were confined to the narrow limits of their ships in the heat of the tropics; and the soldiers who faced death, not merely by the bayonet, the rifle or the cannon, but by dread disease in Cuba, and who have proved that the American makes the best citizen in peace and the best fighter in war of any nation upon the civilized globe, and we repudiate with indignation the accusation made by the Democratic candidate for governor of this State, at the commencement of the late war, that the seizure as prizes of war by the gallant sailors of our navy of certain Spanish vessels was no better than piracy.

"We rejoice in the deeds of these sailors and soldiers, admirals and generals, and pledge to them and their families the undying gratitude of the American people whose spirits have breen exalted by the spectacle of the flag of the union borne in triumph around the habitable globe by the army and navy of the United States.

he victories won by our sailors soldiers at Manila and Santiago and solders at Manila and Santiago and the consequent acquisition of new territory have increased our national horizon and imposed new and great duties upon us. To properly care for what we have conquered, to adequately protect American citizens engaged in travel or business abroad, to appropriately guard our national honor and make our flag the safeguard of all who seek the shelter of its folds, demands of us a navy large enough to compel foreign nations—whether savage or civilized—to recognize the claim of American citizenship, wherever made, as entitling the claimant to safety and protection for his property, his business and his person. We pledge our Senators and Representatives in Congress and our candidates and our party to work and vote to secure the building of an adequate navy, as recommended by the present Republican Secretary of the Navy, and request that a proportionate share thereof be constructed on the Pacific Coastey.

THE PEOPLE'S PRESIDENT. "The wisdom of the people's choice in 1896 has been made more and more in 1896 has been made more and more apparent as time progresses. The patriotic devotion to his country which called our candidate in that campaign to the ranks of its soldiers in the hour of rebellion has characterized his every act since his inauguration as President. He has remembered the claims of his friends and his party, but never at the expense of the nation. He has protected the credit and maintained the honor of the United States. His firmness prevented the mistake of recognizing Cuban helligerency and the plunging of the country into war unprepared, while his untiring activity since the war was declared has made possible the glorious successes we have achieved on land and on sea. He has proved himself equal in diplomacy to the astute ministers of the old world, and has inaugurated the reign of honesty and fair dealing in the diplomacy of the age.

"Each day adds to his glory and apparent as time progresses. The pa-

"We congratulate the people of the United States upon the fact that the broad American policy of our President, William McKinley, has dissipated all sectional issues. His policy, both as to the leaders and the rank and file and in all matters pertaining to the late war has been of the broadest and most patriotic character, so that side by side for a common flag and a common cause have marched and fought the son of our departed hero and patriot, U. S. Grant, Fitzhugh Lee, Shafter and Joe Wheeler and the boys who wore the gray. All under the old flag and for patriotic love of country, so that today we are, in truth and in fact, in peace and in war, one united people. A UNITED PEOPLE.

MONEY PLANK.

"We reaffirm our belief in the financial plank of the Republican national clai plank of the Republican national platform of 1896 as being a sound and correct exposition of the views of the Republican party upon the finances of the country. We commend the efforts of the national administration to secure an international monetary agreement, and urge that the attempt be renewed whenever an opportunity to do so shall be presented.

BALANCE OF TRADE. "We call attention to the fact that since the return of the Republican party into power the balance of trade has changed from more than \$400,-000,000 against the United States to 000,000 against the United States to about \$880,000,000 in our favor, and all of this is due to the wise and con-servative anancial policy adopted and adhered to by the Republican Congress

adhered to by the Republican Congress and President.

"We commend President McKinley for his refusal to consider any proposition looking to the assumption of the Spanish-Cuban debt. The United States, in the pursuit of its purpose of freeing the people of Cuba from Spanish misrule has taken possession of that island and also Porto Rico and other West India Islands and of the Philippines. The Republican party of California is in hearty sympathy with the declared policy of the President to accord to the people of Cuba an opportunity to form a stable government, thus redeeming the promise made to the world.

OUR FOREIGN TERRITORY.

OUR FOREIGN TERRITORY. "The national welfare demands the retention of the island of Porto Rico and other West India Islands coming under our control, and of the Philippines, in order to permit the expansion of American trade and in case of the latter to safeguard the commerce already secured in the Orient. In the event of the retention of this foreign territory, it should be the policy of the United States to extend to it the benefit of free commercial intercourse with all sections of the American Union, and to that end the provision of the Constitution requiring 'that all duties, imposts and exercises shall be uniform throughout the United States' should be rigidly enforced. and other West India Islands coming un

form throughout the United States' should be rigidly enforced.

"We pledge the nominees of the Republican party in the various Congress districts in the State to use their utmost efforts, if elected, to secure the speedy extension of the revenue system of the United States to the islands of Porto Rico and the Philippines, that all parts of our country may enjoy the benefits of trade intercourse with our new acquisitions on the same terms that now prevail through out the United States.

Democratic Senator of this State, and the present Democratic nominee for Govenor, then in Congress, for opposing the annexation of Hawaii, and wholly failing to represent the interests or wishes of the people of this State in that regard.

"We approve of the conduct of the Republican Senator, George C. Perkins, and our Representatives in Congress from California, J. A. Barham, E. F. Loud and S. G. Hilborn. They have ever labored for the advantage of our State and have secured wise legislation for its interest.

"The necessities of war and the de-mands of peace alike call upon the American people to unite the Atlantic American people to unite the Atlantic to the Pacific by the construction of a canal across the isthmus of Nicaragua. It should be immediately commenced and vigorously prosecuted, so that in the near future the commerce of the world may seek the Pacific Slope and the Atlantic Coast through a canal constructed and maintained by the United States, with the American flag spreading its protecting folds over its cutire length. We pledge our every exertion to secure this result, and hope the Pacific-Coast-built warship, the Oregon, that made so gallant a sail oregon, that made so gallant a sail around Cape Horn, may be the first to bring the good news through this great artery of trade.

PACIFIC RAILROAD DEBT. PACIFIC RAILROAD DEBT.

"The last Congress having unanimously passed a law providing for the collection of the indebtedness due from the Central and Western Pacific railroads to the government, the Republican party favors the enforcement thereof, and unless such law and all the provisions thereof be promptly accepted and complied with, by such specified railroad companies, that the law be strictly enforced and the lien on said roads and properties be foreclosed, and said roads and mortgaged property be soid according to law, and closed, and said roads and mortgaged property be sold according to law, and that all funds that now or hereafter are realized from either or both of the said Pacific railroads or from the collection of their debt to the government, whether voluntarily or by foreclosure, be applied to the construction of the Nicaragua Canal.

LOWER RAILROAD RATES. We pledge our candidates for rail coad commissioners to reduce, where er practicable and needed, the rates ever practicable and needed, the rates of freights and fares now charged by the transportation companies of the State, having, in so doing, a just re-gard for the wages of their employes and the rights of the people. "Economy in the expenditures of the evenues of the individual of the State revenues of the individual of the State is absolutely necessary to the happiness of the man and the security of the community. The Republican party now, as ever, believe in a rigid economy in all departments of the government, city, county and State. We pledge all our candidates to an economical administration of public affairs to the end that taxation may be reduced to the smallest rate commensurate with the needs of the public welfare.

SINGLE TAX. SINGLE TAX.

"We oppose the doctrine of the single ax, of which the Democratic nomine for Governor is the apostle, as

tax, of which the Democratic nominee for Governor is the apostle, as being socialistic and anarchistic, and the practical workings of which will be to release stocks, bonds, corporations and usurpers from taxation, and place all its burdens on the farmers and owners of homesteads.

"We approve of the war-revenue act recently passed by Congress as being in line with the above sentiments, as it compels the luxuries and the corporations and aggregated wealth of the nation to pay a greater, yet not improper, share of the taxation made necessary by the war than any revenue measure heretofore adopted. Its provisions for the issuance of bonds wisely extended the payment of the expenses of the way to include the generation who will receive the greater benefit from its results than the present, while it enables the people of America to show their patriotic faith in the country by purchasing the amount of bonds required, a striking contrast in financial and statesmanlike policy to the selling of bonds to a greedy syndicate by the last Democratic national administration.

DEFENSE OF COURTS.

DEFENSE OF COURTS.

"This is a law-abiding country, and "This is a law-abiding country, and we are a law-abiding people. Under our system of government there is no danger of any one of its departments assuming power to the detriment of the others or the injury of the nation. The voters have always a remedy for the ills that they think afflict them by a change of officials in the manner provided by the organic law of the land. We deprecate the attempt by the. Democratic-Populistic fusion party of California to stir up hatred of the judiciary and contempt of law as calculated, if not designed, to sap the foundations of our republic and bring anarchy upon our country. Those who abuse the laws and judges thereof are usually those who need the restraint, and have felt the deserved punishment of the law. There is no document so wicked as that which seeks to override the courts because of fancied errors, and no man so criminal as he who enunciates such doctrines. In our country the law must ever be the ruler, or socialism, anarchy and their attendant horrors will destroy the commonwealth. We appeal to all good citizens and to all true Americans to rebuke this unholy assault upon the courts, that have ever been in America the bulwark of the people and the shield of the innocent.

THE VETERANS. we are a law-abiding people. Under

THE VETERANS. "The veterans of the army and navy of the United States deserve and should receive fair treatment and generou recognition. Whenever practicable, they should be given the prevence in the matter of employment and appointive officers, and they are entitled to the enactment of such laws as are

best calculated to secure to them the fulfillment of the pledge made to them in the dark days of the country's peril. furthermore, we ask our State leg-slators to work to the end that the

act of the Legislature, approved March 31, 1891, relative to the employment of Union veterans, may be made more effective and bindnig upon the various State and county officials. COMMON SCHOOLS.

"The common schools have ever been jealously guarded and supported by the Republican party. The publication of school books by the State reduces the expense of furnishing them to the minimum cost of manufacture, thus saving large sums to parents and prov-ing a valuable ald in the general diffu-gion of knowledge, while it increases the attendance in the schools. We condemn attendance in the schools. We condemn the efforts of the present Governor to destroy the ability of the State to economically produce school books, as certain to again deliver the people of California into the hands of an eastern school-book monopoly, whose exaction will be all the more oppressive because of our exemption therefrom for the past six years. We denounce the action of the present Governor in vetoing the past six years. We denounce the action of the present Governor in vetoing the appropriation for the support of the State Printing Office as unwise, unnecessary, contrary to the spirit of the law and injurious to the interests of the State. Its inevitable result has been to cripple our splendid State schoolbook system, and the common schools to cripple our splendid State school-book system, and the common schools themselves. We pledge ourselves to pass such laws as will prevent such action in the future, will maintain the cemmon schools of California at their present high standard, continue the printing of school books by the State, and, if possible, put into the hand of every child in California, free of cost, the books from which the learning may be gained to fit the youth of our great State to assume the burden of citizenship with all its attendant duties. STATE UNIVERSITY.

"The University of California has in the past been the recipient of the care of the Republican party, under whose liberal support it has been en-abled to reach its present high stan-dard. We pledge ourselves to continue that support, and to make the uni-versity worthy in every respect of the most enthusiastic hopes of the peop-ple. It filty crowns the educational sys-iem of our State. MINING INDUSTRY.

"The mining industry, ranking as it does, among the foremost industries of our State, is entitled to the fostering care of both our State and national government, and we congratulate the miners of California that legislation inaugurated by a Republican Governor and carried to completion by a Republican Legislature and a Republican Congress, placed their industry where it rightfully belongs, and surrounded it with such legislative safeguards as has restored confidence among those engaged in the mining industry, and caused a large and rapid increase in the yield of the mineral products of California. We pledge our legislative and Congressional homizees to continue the work so happliy begun under Republican auspices until all needful legislation in behalf of the mining industry shall have been accomplished.

STARVING PRISONERS.

AGUINALDO'S BRUTAL INDIFFER-ENCE AROUSES MERRITT.

American General Orders Daily Rations Delivered to the Imprisoned Spaniards-Several Ex-

declared to be in a starving condition. Gen. Merritt issued orders that rations be regularly issued to them. Less than one hundred Spanish prisoners are in rebel hands in Cavite, and the manner in which they are treated latterly is full of ominous suggestions as to the fate of other men held by the insurgents and imprisoned at different points on the island. The Cavite prisoners were examined and inspected by Lieut.-Col D. L. Brainerd and Dr. C. E. Woodruff. They reported that while the guards were well fed the prisoners are no: given enough to keep the body and soul together. All are in bad condition, and there are several extreme cases.

When Merritt received the report he at once issued orders directing that each prisoner be given a pound of flour and half a pound of meat daily. There are about four thousand prisoners in the garrison at Subig, Imus, Rampangas, Bulucan and other points, and it is feared that if the insurgents fall to provide for the captives held under the eyes of the Americans at Cavite they will not treat their prisoners so well where there is no restraint. In the early days of his success and when Cavite was his principal prison, Aguinaldo treated his prisoners very well. Fresh peef was killed for them and they were given practically the same food as the insurgents. Then came a shortage in the dictatorial treasury, and the necessity for more room for the American troops caused it to be decided to remove all prisoners from Cavite. Since their departure some weeks ago, vague rumors of their maltreatment have reached the fleet and the post, but there has been no means of investigation. The matter will receive attention as soon as possible. It is not at all improbable that many reports are true for the natives hold life and property at a much lower figure than most peo ple, and beyond it all there is a deep desire for revenge on their part.

PAPAL THANKS.

IBY DIRECT WIRE TO THE TIMES ! ROME, Aug. 25.-[Exclusive Dispatch.] Cardinal Rampolla, Papal Secretary of State, telegraphed to Archbishop Ireland to call on McKinley and thank him for the declaration concerning the Catholic religion in the territories captured by the United States. The Pope will probably make Ireland Cardinal, as the United States has only one cardinal and the Vatican thinks more are advisable.

CUBAN DUTIES. [BY DIRECT WIRE TO THE TIMES.] HAVANA, Aug. 25 .- [Exclusive Dispatch.] The Spanish government deided yesterday to announce that the decree regarding the payment of duties upon goods coming from Santiago and other Cuban ports occupied by American forces affects equally the merchandise imported from abroad and that coming from such parts of the island. It is held in effect that these parts of the island are foreign territory. In regard to natural manufactured products of the region affected by the decree it is proposed to suggest to the Central government the advisability of reaching a modus vivendi on the sub-dect with the American government. In we declare it to be our firm conviction ject with the American government. In the mean time it is further suggested that such merchandise shall remain in the honded warehouses.

Supplies are reaching Havana, but articles of prime necessity, such as bread, eggs, meat and butter are still very dear. According to the report by the commanding general of the department of Sancti Spiritis, two Americans who served in Gen. Maximo Garcia's army surrendered themselves to him. STARVING WORKINGMEN [BY DIRECT WIRE TO THE TIMES.] GIBRALTAR, Aug. 25,-[Exclusive Dispatch.] In Barcelona the labor question seems to be approaching an acute stage. It is estimated that something like five thousand workingmen are penniless and on the verge of star-vation. Articles of prime necessity reached extravagant prices, and to cap all, the heat is terrific and is caus ing outbreaks of disease among the semi-starving. This is all the more serious, inasmuch as Barcelona is a regular hotbed of republicanism

Publicidad, a cleverly-conducted pa-per of a ferociously republican type, twice incurred the displeasure Cant.-Gen. Despujois, and on each of casion was fined, but the second time the proprietor was informed that an-other offense would incur suppression. This really means a political conflict as the paper will bubble over the surface at the first opportunity. Then again, there is a society formed in Barcelona with the avowed object of seeking annexation to France, being so near the frontier and approachable in various directions, the situation is extremely favorable to the inception of revolutionary operations, whether in-stituted by the Carlists or others.

PRESIDENT M'KINLEY HAS NAMED HIS COMMISSIONERS.

john as Controller of Customs-Cuban Situation.

[BY DIRECT WIRE TO THE TIMES.]
WASHINGTON, Aug. 21.—[Exclusive Dispatch.] All five peace commissioners have been chosen by President McKinley, and he said this afternoon that he would make the names public Saturday. The commissioners which remained to be chosen were decided upon today at a conference between the President, Secretary Day and Senator Davis. Of course, Day, Davis and Frye will be the first three commissioners, as announced in The Times yesterday morning. Who the other two will be is a matter of doubt, as the President is taking every pre-[BY DIRECT WIRE TO THE TIMES.] as the President is taking every precaution to prevent their names from becoming public before the time he has set. The five names heard tonight in connection with these two places on the peace commission, are Gen. Tracy, New York: Justice McKenna, United States Supreme Court; Justice White, same court; Judge Grosscup, Chicago, and Senator Wolcott of Colorado.

If the President has decided to ap-point Gen. Tracy, Whitelaw Reld will go to London as United States Ambassador in consequence. That is the agreement said to have been made with Senator Platt, and the President is in-clined to shy at the whole proposition. Justice White was pretty generally put down tonight as the fourth commissioner. Men in high places declare up and down that he has been chosen, but cannot say why they think so. They certainly do not know it as fact, for nobody but the President, Judge Day and Senator Davis know the facts. Justice McKenna's stock appears to be rising. He is a Catholic, and it is agreed that a Catholic should be on the commission. He is a Californian, and there has been a strong demand for the appointment of a Coast man on the commission. Mr. de Young of San Francisco is not thought to have any chance; probably he is not anxious to go upon the commission, anyway.

Judge Grosscup's particular upon the commissionership is the fact that he delivered a bang-up imperialistic speech at Saratoga last week. That speech has attracted the attention of the country, and it has particu larly attracted the attention of the

tioned as possible because he is clean-cut young man of ability, and in a measure represents the silver ele-ment among the Republicans. That is a summary of the commis-sion gossips tonight the facts will be

known soon.

PONCE AFFAIRS.

Preparations Making for Sending the Volunteers Home.

PONCE (Porto Rico,) Aug. 24.-The coasting schooner Dolores, flying the Spanish flag, entered the harbor this morning. Her captain was uncer-tain whether a state of peace or war existed, but decided to take his chances The Dolores was not molested. The Alamo, with supplies and clothing for Gen. Henry's men, sailed for Arceibo, on the north coast of Porto

ceibo, on the north coast of Porto Rico, this morning.

Gen. Brooke is still waiting his credentials. On their arrival he will immediately leave fr San Juan, a troop of the Sixth Regular Cavalry acting as escort. Preparations are being made for the embarkation of the volunteers and cavalry ordered home. The cavalry includes troops A and C of New York, and the following Pennsylvania troops: The Philadelphia city troop, the Sheridan troops and the New York, and the following Pennsylvania troops: The Philadelphia city troop, the Sheridan troops and the Governor's troop. These are concentrated here and at Guanica, and will probably sail on the transport Missispip in the course of a few days. The men are delighted at the prospect.

MEIKLEJOHN COLLECTOR.

[ASSOCIATED PRESS NIGHT REPORT.] WASHINGTON, Aug. 24.—Before leaving Washington, Secretary Alger issued an order directing that Mr. Meiklejohn, Assistant Secretary of War, should have control of all matters relating to the tariff duties and taxes to be levied and collected as a mili-tary contribution upon the ports and places in Cuba, Porto Rico and the Philippines occupied by the forces of the United States.

ALL SALOONS CLOSE.

PONCE (Porto Rico,) Aug. 24.-Gen PONCE (Porto Rico,) Aug. 24.—Gen. James H. Wilson has assumed control of the district of Ponce, and has or-dered that all saloons shall be closed for three days, with a view of quieting the existing disorders. They will be opened subsequently under special reg-ulations. Gen. Grant has established his headquarters here.

NEW YORK, Aug. 24.—A dispatch to the Herald from Madrid says:
"There is a growing feeling of irritation, which has been discussed fully in ministerial circles, at the nature of the insurgents to respect the protocol, and the order for a cessation of hostilities. An important political personage, speaking of the situation, said:

stop the repatrition of the Cuban troops unless the United States could give guarantees that Spanish interests will be guarded from the piratical inclination of the insurgents.

"The matter is at such a point if the insurgents continue hostilities, the government, according to a most important ministeralist, will give orders to the Spanish troops to take the offensive against those insurgents who do not respect the protocol.

In an interview with H. S. Rubens, coursel for the Cuban delegation, he said that it was possible that small coands of Cubans were still fighting in the interior of Cuba. There are no telephone or telegraph wires running over the island, and he thought it would be possible that some bands were not aware of the cessation of hostilities. He was sure, however, that wherever the news of the protocol had been carried, the Cubans would cease fighting.

Hoffman's Crescent Brewery and the Central Bottling Company's Works Together With Surrounding Tenements Burned-Many Thrilling Rescues Made.

NEW YORK, Aug. 25.—The explo-sion of a large ammonia tank used in the making of artificial ice set fire at an early hour this (Thursday) morning to Jacob Hoffman's Crescent brewery, a five-story at Nos. 206 and 208 East Fifty-fifth street. The flames spread with mar-velous rapidity, and the Central Bottling Company's plant, of which A Wolff is the president, at No. 202 East Fifty-fifth street, caught fire. Within a short time the entire block surrounded by Third avenue, Fifty-fourth and Fifty-fifth streets seemed to be doomed. The surrounding tenements, all filled with sleeping people, next ignited, and the bewildered tenants began to pour into the streets. Alarm after alarm was turned in by the police, and the earlier arrivals of firemen, until four alarms had sounded. surrounded by Third avenue, Fifty-

As a precaution, several ambulances were called from Bellevue and other hospitals. Many thrilling rescues of frightened men, women and children were made by the firemen.

At 2:30 a, m. the fire was under control. The loss is roughly estimated at \$300,000. While there is no knewledge of loss of life, it is not improbable there were some casualties. The night watchman could not be found at an early hour this morning, and it is believed he may have been killed by the explosion.

It appeared that 224,586 officers and men, or more than 62 per cent., died of disease. The remainder of the deaths were due to various causes. and was excused from the attendance at the meeting of the Cabinet.

"I will start the first thing for Camp Wikoff," said Gen. Alger, "and will stay one, two or three days, if necessary to make a complete investigation. If I can make the soldiers more comfortable I shall feel repaid."

When asked about the mustering out of the troops he said.

When asked about the mustering out of the troops, he said:
"That is a very difficult matter, and has been delayed to give-us a chance to make the best move. All of the volunteers who have seen service, either at Santiago or at Manila, with few exceptions, will be mustered out. Many of the volunteers want to remain in the service, and for days I have been besieged with letters, petitions and personal appeals by the friends of such regiments to keep them in the service. "Of course, a large army is necessary, and will be kept up. Nevertheless we feel that there are many who made great sacrifices to get to the front, and now that they are not wanted, we went to give them back to their families and business. I do not know just when the official order to muster out will be given, but I think it will be given within a week. "What will the government do for the many volunteers who may find it impossible to get their old positions back?" was asked. "That is another proposition. I trust there will not be many such cases, as I trust the patriotism of the employers a great enough to preclude such a possibility. But the government can do nothing in case the men are refused, heir old positions. The government is not conducting an employment bureau."

onsul-General Mason of Frankfort Germany, Writes an Able Paper on the Search for Markets-Les for the Quick-learning

[A. P. EARLY MORNING REPORT.] NEW YORK, Aug. 24.—A Tribune Washington special says the new age just beginning, the age of commercial ivalry between the United States and the three or four greatest nations of Europe, calls for different kind of ac-tivity and knowledge from that which has characterized the one gone out and its predecessors. In a remark-bly able paper, out of the ordinary nature of consular reports, submitted to the State Department, Consul-Gen-ral Frank H. Mason at Frankfort, Germany, writes of the "quest few."

to the State Department, Consul-General Frank H. Mason at Frankfort, Germany, writes of the "quest for export markets," and shows the development of an exact, specialized science of export. The individual exporters and the association of exporters are reinforced by expert government commissions, elaborately equipped, and maintained.

The efforts of France and Germany in this direction are held up for the emulation of American manufacturers and exporters, and they are warned that they cannot too soon direct their attention to the record by these European countries. The German export commission which went out in February, 1896, to study the Chinese, Korean and Japanese markets, returned after a year, bringing a vast collection of the ordinary textile and other goods used by the people in those countries. With prudence these samples were shown only to those especially interested, admitted by card, and a like discretion characterized the reports made by the commission.

In the same manner the French com-

discretion characterized the reports made by the commission. In the same manner the French commercial commission sent out by the chambers of commerce of Marseilles, Roublix, Lille, Bordeaux, and Lyons, spent nearly two years in investigating and then presented its collections and reports to the chambers of commerce directly interested. One of these technical reports has been published

merce directly interested. One of these technical reports has been published, and only general conclusions are known. Some of these have been given a few months ago, coming from the American consuls in France.

Consul-General Mason says that in all the specialized work of these commissions there is broad recognition of the fact that in American trade it is the buyer and not the seller who determines the kind of article wanted, and the manner of packing and labeling. He makes one important stateand the manner of packing and labeling. He makes one important statement which Americans would do well to
heed, namely that the Germans are,
perhaps, the ablest masters of this
theory of export trade, and that the
English have lost much for want of
it. Circulars and catalogues will not
compete effectively with the French,
German or English merchant, who is
there on the spot. His goods are duty
paid and salesmen are there to show

"You Americans certainly seem to have mastered the art of constructing most effective battleships. The grand record of the Oregon is an example. You seem to be able to fight your ships pretty well, too. There are many valuable lessons to be learned from the war, not the least of which is that personal courage, when misdirected, and when opposed by a cool and skillful foe, is of no moment whatever. From a technical point of view the most impressive lesson is that expert gunnery is above all things the most important factor in naval conflicts. Your country undoubtedly possessed ships which were greatly superior to those of Spain, and they were manned better in every respect, but it was your greatly superior gunnery which for the greater part gave you such crushing victories.

greatly superior gunnery which for the greater part gave you such crushing victories.

"Another impressive lesson is the need if non-combustible matter in the construction of warships. The superiority of vessels of high speed was also clearly demonstrated. As the result of this there undoubtedly will be constructed in the near future more vessels of the Brocklyn class.

"Much has been said to the effect that the war has demonstrated that the torpedo hoat and destroyer are not the formidable instruments they were thought to be. I do not fully agree with this view. It does not seem to me that a fair test was made of the merits of these boats."

The admiral has inspected the Japanese cruiser being built by the Union Iron Works, and will inspect the cruiser building at the Cramps' yards. He visited the plant of the Illinois Steel Company today. From here he will go to Pittsburgh.

As William Will, a mechanical engieer, was in the act of taking the cartridges out of a revolver he was exhibridges out of a revolver he was exhibiting in the hope of selling, a builet was discharged from it, which entered the right groin of B. H. Thomas, foreman of brick work for Contractor Christian J. Kubach. The shooting, which those present unite in saying was accidental, occurred in the saloon

which those present unite in saying was accidental, occurred in the saloon at No. 110 North Alameda street at about 11:30 o'clock last night.

Will, familiarly known as "Windy" Will, ran out of the saloon as soon as the report was heard, and as Thomas's friends thought he went to summon the patrel wagon to carry the wounded man to the Receiving Hospital, they did not detain him. Policemen have been unable to locate him, and he has not called at the station to surrender him self. He was intoxicated at the time of the occurrence.

Thomas. August Schipull and another friend, all workers in brick, returned from Oxnard last Sunday, where they were working for Charles Leonard, a cement contractor. Since their return they have been carousing together, and last night they were drinking in the saloon where the casualty took place. Will, the men say, has been out of employment for some time, and he was trying to dispose of a gun he had. He had asked Thomas to buy it, and though the latter said he had no use for it, Will urged the matter and started to take the weapon apart to show its worth. He was about to extract the cartridges, when one exploded. Thomas was ten to twelve feet from Will, and the others were much mearer, yet he was the unfortunate one.

from Will, and the others were much nearer, yet he was the unfortunate of the nearer, yet he was the unfortunate of the Receiving Hospital, and Police Surgeon Hagan summoned. All the doctor fould do was to dress the wound. He says Thomas is in a critical condition, and may die at any moment. The bullet passed from the groin to the bladder, and is now lodged in the abdominal cavity. It was not thought advisable to probe for it immediately.

Thomas made a statement saying that he believed the shooting was accidental. His friend Schispull, and José Sanders, one of the owners of the salcon, who was within a few feet of Will when the revolver was discharged, coincide with Thomas in his opinion of the affair.

Thomas is about 38 years old and a man of family. He has a home on East Adams street near Hubert. His wife was notified of the accident, and she arrived at the hospital shortly after 1 o'clock this morning. She said very little being convulsed with tears. Thomas was to have gone to Clearmont this morning to superintend some brick work for his employer.

Time." It is the period when she blossoms from girlhood into womanhood.

At this momentous time the best medicine for a woman to take is Dr. Pierce's Fayorite Prescription. It acts directly upon the delicate and important organs that are to bear the burdens of wirehood and motherhood. It makes them strong, healthy and vigorous. It corrects all irregularities and displacements and stops exhausting drains. Taken during the period of expectant maternity, it banishes the usual annoyances and makes baby's coming easy and almost painless. It insures the new-comer's health and an ample supply of nourishment. It transforms weak, sickly, nervous, complaining women into happy, healthy wives. Thousands of women have told over their own signatures, the story of the marvelous merits of this great medicine. An honest dealer will not try to persuade you to take something different from what you ask for, for the sake of a few pennies added profit.

SAN FRANCISCO, Aug. 24.—Mrs. Ada Botkin, who is accused of the murder of Mrs. John P. Dunning and her sister, Mrs. Deane of Dover, Del., arrived in this city today at 12:15 o'clock from Stockton, where she was taken into custody last night at the instigation of the Delaware authorities and Chief of Police Lees of this city. Mrs. Botkin, who was in charge of Detective Gibson of the local detective service, refused to make any statement to the newspaper men who met the party on

The accused woman, with her hus-band and the detective, were driven to Chief of Police Lees's office in a closed carriage. What took place in the se-crecy of the Chief's office cannot be learned, but the conference was of comparatively short duration, and after was over, Mrs. Botkin was removed to a cell in the prison, where she will remain until Detective McVey arrives from Delaware with extradition papers, which will transfer the case to the courts of that State.

SAN FRANCISCO, Aug. 24.-The ar rest of Mrs. W. A. Botkin at Stockton last night for the murder of Mrs. J. P. last night for the murder of Mrs. J. P. Dunning and Mrs. Deane at Dover. Del., had been anticipated here for several days. While no one here is willing to accuse Mrs. Botkin of the direadful crime, all the circumstances so far developed point to her as the only woman who could possibly have had any motive for causing the death of Mrs. Dunning.

During the last year of Dunning's stay in San Francisco he was on the most intimate terms with Mrs. Botkin. They were constantly together, and she appeared to be devoted to him. The fact that Dumning's announcement that he knew who caused the death of his wife and had imparted his suspicions to the Delaware authorities was

his wife and had imparted his suspicions to the Delaware authorities was closely followed by the arrest of Mrs. Botkin at the request of the Delaware police, would indicate that Dunning has reason to suspect that the woman now in custody committed the crime.

Mrs. Botkin passed a comfortable night in the Stockton jail, and was brought to San Francisco today, where she will be held to await the arrival of an officer from Delaware.

"I feel very well, thank you, and am quite ready to go. I have gotten past all the humiliation of the charge. I am ready to meet it."

Mr. Botkin stoutly asserts the innocence of his wife. Their only son, Beverly Botkin, is reported to have been drinking at the time of his mother's arrest, and refused to see her.

Detective Gibson, who assisted in the arrest of Mrs. Botkin, states that he has no warrant for the arrest of any other woman. He thinks that Mrs. Botkin will break down, and has taken precautions to prevent her from committing suicide. She was much agite when told that she would have to stand trial on the chrage of murder, but soon recovered herself, and said the charge would have to be proved. She had nothing to say, however, and positively refused to see correspondents. Dr. Stone, who had been giving Mrs. Botkin morphine for her nerves, informed the jailor that she had enough of the drug to kill her if she should take it all at once, so it was taken from her shortly after her arrival at the jail.

The hack containing the father and son returned presently, and then a crowd began to gather about the entrance to the jail. Detective Gibson was admitted to the jail, after which the woman's husband mounted the steps, cane in hand. He was also admitted, but while his wife was making preparations to leave the place he returned to the front of the jail, and as he stood looking toward the reporters present he remarked, rather loudly:

in the vehic, while the train was being made of, while Botkin and his son stood at the door of the hack and conversed with the accused woman in a low tone, both apparently unconcerned and merely passing away the time until the train should be ready.

In a few minutes the train pulled up, when Mrs. Botkin stepped from the hack, accompanied by the detective. She seemed very calm, and walked with a quick, firm step, the detective on one side and her husband on the other, while the son followed close, behind. There was very little conversation between husband, mother and son, and what passed between them 'was in a low tone. While waiting for the trein to move, Mrs. Botkin drew the morning paper from her husband's coat pocket and began reading.

Only when the train was on the move did they release each other. Then the sen hurried to the platform of the car in the rear and swung himself off the train, his father continuing on the train. A large crowd of curious people gathered at the depot to get a look at the accused woman.

"I have talked with the Attorney-General and other State officials of Delaware, disclosing all facts within my knowledge, which could possibly lead to the detection of the person who is guilty of this tragedy. From the moment I learned of the fiendish murder of my wife and sister-in-law, upon my arrival in New York from Porto Rico last, Friday, my own desire has been that the guilty should be brought to justice. I have withheld nothing from the officers which could lead to the detection of the criminal, but for two reasons I must refuse to make any statements for publication. First, because it might defeat the officers of justice, and, secondly, innocent persons might be involved. I will continue to maintain this course, even at the risk of subjecting myself to unjust criticism."

the risk of subjecting myself to unjust criticism." WHERE IT WAS MAILED.
[ASSOCIATED PRESS DAY REPORT.]

SAN FRANCISCO, Aug. 24.—It has been learned that the box of poisoned hocolates was mailed at Station B., on Market street near Larkin on August 4, as first-class mail matter ust 4, as nrst-class mall matter. A woman took the package to the station, had it weighed and placed the exact postage, 27 cents, on it. The clerk who accepted the package will in all probability be able to identify the woman.

HE SOLD SOME CANDY.
[ASSOCIATED PRESS DAY REPORT.] STOCKTON. Aug. 24.-A story told by Frank Gattrell, a salesman the Wave candy store here, wh nay throw some light on the identity

the Wave candy store here, which may throw some light on the identity of the woman who purchased and sent the poisoned candy. Gattrell's story is as follows:

"When I read in the Mail last evening that the box containing the poisoned candy had 'Bon-bons' printed in gilt letters on the cover, and that the candy was home made, I remembered that about three weeks ago a woman came into the store and asked for a four-bit box of candy, saying that she had some candy which desired to put in the box with some of our make. As the box was to contain some goods other than our own I gave her a box which did not have our name upon it. The candy which she put in looked old to me, and it nearly half filled the box. Of course, I did not examine the lady closely, and I can only describe her by saying that she was of medium height and build."

As Mrs. Botkin is known to have been in Stockton about three or four weeks ago, when she was treated by Dr. Stone for a slight illness, the two facts taken together may be regarded as significant. Gattrell could not place the selling of the candy in question any more definitely than that it was about three weeks ago. He was positive, however, that there were chocolate creams among the candy, besides other French candies. W. F. Kuhn, proprietor of the store, says that he would know both the box and the candy again should he see them.

Chief of Police Gall has been informed of the facts as related by Gattrell, and is now at work upon the clew.

Chief Moore submitted to the Board of Fire Commissioners yesterday a report of all the changes that had been made in the fire department since the civil-service rules went into effect.

The suit just begun by the head of a family at Pasadena against a local water company, to recover damages for injuries sustained by his family in using the impure water supplied, is somewhat in the nature of a new departure. The family in question suffered from typhold fever, one child, it is alleged, being rendered permanently deaf, and this is laid at the doors of the water company, and \$10,000 asked by way of compensation.

Judge Shaw rendered an opinion—or rather a preliminary statement—yesterday, in what is known as the San Dimas water case, wherein about 150 ranchers and fruit-growers are directly concerned. Later a schedule will be handed down by the court defining the priority rights of the parties to the suit, and the amount of water to which they are entitled.

E. Nichols were present and took part in the discussion. The first matter to be heard was the request of the Board of Police Commissioners for an increase in the apportionment to be made to that department, such as would make possible the establishment of a police signal system. For the purpose of presenting this matter properly before the Finance Committee, a special committee of the board appeared at the meeting. The committee consisted of Commissioners and Gibbon and Chief of Police Glass accompanied them. City Liectrician Francis was also present to enlighten the committee on the cost of such a signal system as the police department desires. Each of the commissioners addressed the Finance Committee, showing that body just what advantages would accrue to the police department from the installation of a signal system. They were very earnest in their argument, and declared that if the system was established the officiency of the police department would be increased from the system was established the officiency of the police department would be increased from the installation of a signal system. They were very earnest in their argument, and declared that if the system was established the officiency of the police department would be increased 50 per cent. The mentions of the Council explained to the committee that it all depended upon whether the money could be provided, and pointed out the fact that every department of the city government had suffered some reduction in the estimate of expenses which they had presented prior to the filing of the Auditor's report. The argument for the system was along the same lines as that heretofore presented before the Council. A new point was raised, however, by the suggestion that the signal boxes, such as are needed by the department be rented, and City Electrician Francis stated what the cost of the rental would be. He said he could secure the boxes with the understanding that all that was paid as rental should later be applied as part of the purchase price when the city was able to buy the system. The several items of cost incident to the establishment of such a system were gone into in detail.

President Davis said that he had been informed that there are now in this city upward of 2500 children who do not attend any school, and were he able he would like to examine into this matter and remedy the evil, but at present without the room for what they had in the schools and without the funds to properly investigate the matter, it would have to remain as it is. Many of these children could go to school if they would attend half-day sessions, but some of them refuse to do so, especially those wao would have to go in the afternoons. "It is from these young vagrants that our criminals are made, and the effect of so many children without school accommodations will be felt some day," said boxes, such as are needed by the department be rented, and City Electrician Francis stated what the cost of the rental would be. He said he could secure the boxes with the understanding that all that was paid as rental should later be applied as part of the purchase price when the city was able to buy the system. The several items of cost incident to the establishment of such a system were gone into in detail. The members of the Finance Committee reiterated their willingness to grant the request of the commissioners, provided there was some way to provide the money. The proposition to rent a system, while not rejected, was not received with much favor, it being stated that that would be the more costly plan in the end. City Electrician Francis called the attention of the Finance Committee to the fact that at the present time he could secure the use of the Sunset Telephone and Telegraph Company's conduit systm for a police signal system if one was purchased, while it might be possible that in six months or a year he would not be able to secure the use of that company's ducts. At the conclusion of the argument, the Finance Committee took the matter under advisement.

Education for an increase in the apportionment to be made that department over the estimate filed by the City Auditor, was next considered. President Davis, Mr. Simonton and Mr. Conrey of that board, and City Superintendent of Schools Foshiay appeared in behalf of this request, President Davis doing most of the talking in support of it. He made a statement to the Finance Committee which shows that a very serious condition of affairs exists in the schools on account of the scarcity of funds with which to properly, transact the work of that department. At the outset he stated that nearly all the departments to estimate the stated that nearly all the departments the estimate of the committee stated yesterday that Another special meeting of the Fi-Another special meeting of the Finance Committee will be held this morning at 10 o'clock, at which the presence of all the Councilmen has been requested. It is the intention of the committee to finish up the work of preparing the list of apportionments as soon as possible, and today's meeting will be for that purpose, and therefore of importance to all the city departments. One of the members of the committee stated yesterday that in nearly all the departments the estimates of the City Auditor would, be closely followed.

FIRE DEPARTMENT CHANGES. Prometions, Transfers and Dismiss-

Fire Commissioners yesterday was of less than fifteen minutes' duration, the business being purely routine. In the absence of Chief Moore, Assistant Chief Smith appeared to make the weekly report. On his recommendation the petition of G. G. Wickson & Co., for permission to operate a steam boiler and engine at No. 715 Turner street

report shows that quite a humber of changes have been made during the year.

The fololwing resigned to enter the United States military service: R. W. Burns, O. R. Coulter, Meivin Young and H. H. Hemb. The other resignations were W. D. Shearer, J. D. Lawton, George Connelly, A. L. Smith, B. L. Kiser and Dye Patterson. Those dismissed from the department were James Johnson, C. W. Wyrick and J. A. Sloan. W. Moriarty was derated at his own request from horseman to permanent fireman. George W. Connant and A. Valencia were transferred for cause. T. J. McGinley, J. G. Todd, Carl Miller, W. Jean, C. H. Balzer, S. Quierolo, G. R. Morse Homer Sloan and A. H. Moore and Ira Maxwell were appointed callmen: Ira Maxwell, J. T. Roarke, C. L. Bagley, C. Mathewson and W. Batenburg. The substitute callmen appointed were W. H. Bryden, B. W. Land, B. Brock, F. D. Willits and P. Fraelich.

The Park Commissioners. The regular semi-monthly session of the Board of Park Commissioners will be held this morning at 10 o'clock. The meeting will not be of long dura-tion, as there is little to come before the commission for action.

Repairs Badly Needed.

Councilman Baker has reported to the other members of the Council that the First-street viaduct is so badly in need of repair that it will soon become dangerous. At the next meeting of the Council he will move that the proper repairs be ordered before the structure is further damaged.

Councilman Mathuss, accompanied by Health Officer Powers and City Enby Health Officer Powers and City Engineer Dockweller, visited a number of cesspools in the Third Ward yesterday, at which work is being done by the chain gang. For several months complaints have been made by the residents in the neighborhood of these holes of the stench that arises from them. The chain gang as been at work on them for several days, and if the result of their work does not abate the nuisance, an entirely new system of drainage will have to be provided for that part of the city.

that the detendant corporation has furnished water to his home for domestic use, but that since February of the present year it has been unfit for such use, containing decayed animal and vegetable matter, and having a most vile odor. On the 17th of April the plainiff's youngest girl, Olga, was taken ill with typhoid fever, and four days later too little sister, Ella, was seized upon by the same disease, and very shortly afterward the two boys also were laid up with a typhoid attack. Mr. Roy alleges that all of this fever that afflicted his family was a result of the foul condition of the water sold by the defendant company in a negligent and wanton manner.

The bills for medical attendance aggregated \$250, and while the children all recovered, the little girl, Ella, is alleged to have lost her hearing. As general damages a claim is made for \$10,000, for the amount expended for medical attendance and for costs,

SAN DIMAS LANDS.

Preliminary Opinion on Respective

Preliminary Opinion on Respective Water Rights.

A preliminary opinion in the suit of Bowering et al. against Adams et al., was handed down by Judge Shaw yesterday. The parties to the action include thirty-seven plaintiffs and 105 persons named as defendants. The dispute forming the basis of the action parts out of the fact that the San Lose. pute forming the basis of the action arose cut of the fact that the San José Ranch Company, being the owner of several thousand acres of land and of a water supply amounting to about eight miner's inches, sufficient to irrigate only about eight hundred acres of the land, made contracts for the sale of water amounting to nearly two hundred inches, and consequently there is not enough to go around among all the persons who claim it and give to each his full portion.

The court holds that the evidence shows that it was the intention of the parties to engage in cultivating the land sold with the water right, and that the water was to be used for irrigating the land. Under such circumstances a water right is real estate, and the

court quotes numerous authorities to sustain this definition.

"Such a water right being real estate the sufficiency of the description of the property to convey the title is to be determined," says the court, "by the same rules as apply to deeds of other kinds of real property, it tiere is nothing by which the particular water or water right, the deed or contract, as a conveyance or agreement 40 conveys awater right, will be void. Benjamin Evans's Attorneys Sue to

Recover His Property.
Old man Benjamin Evans, agains whom there were repeated prosecutions in the Police Court for larceny, is now figuring in the Superior Court in an attempt to recover his Lares and Penates from the hands of the police. At least, H. J. Hughes, one of the old least, H. J. Hugnes, one of the old fellow's attorneys in the lower court, is posing as the plaintiff in the action that has just been begun, and as it appears from the complaint, his interest in the goods is just as great, if not greater, than that of the original owner.

Chief Glass and Officers Auble, Hawley and Flawmer are made defendants.

Owner.

Chief Glass and Officers Auble, Hawley and Flammer are made defendants in the suit, and it is alleged that on April 14, Hawley and Flammer went to Evans's room at No. 124½ South Spring street, and without authority of law made a clean sweep of the old man's possessions. And what a curious aggregation of odd materials to find in the possession of an old man living in single blessedness in a downtown rooming house! There were champagne glasses, a Japanese goblet, 275 peices of cut glass, 4 baskets of miscellaneous cut-glass articles and cut-lery, a number of ornamental pieces, 2 rolls of crape silk, 3 Chinese smoking jackets, 100 pieces of bric-a-brac, 10 Bibles and 75 cans of vegetables, corned beef and sardines, with a wide variety of other articles. All of this property is alleged to be worth \$500, and Attorney Hughes alleges that Evans made to him his bill of sale for the property for a valuable consideration.

The plaintiff alleges that a demand has been made upon the police for these goods, but it has not been com-plied with, so his damage in \$200, and for this amount and the value of the goods, if they themselves cannot be recovered, judgment is asked.

ing at 10 o'clock. Today, it is probable, he will appear for trial before Justice Morrison on a charge of petty larceny, on which he was arrested last evening while out on bail on the charge of cruelty to animals. The latter complaint was sworn to by Deings, a carpenter living on Flower street near Ninth, two pieces of step-ping valued at \$2. McKay has been a business man in this city for several

a business man in this city for several years, and is at present manager of the store known as "Gabel the Tailor."

The cruelty-to-animals case engrossed the attention of Justice Owens all day yesterday, and the greater part of the time it was impossible to tell from the cyldence whether it was a charge of cruelty to animais or of petty larceny that was being tried.

Detective Audie told what he knew about a sore on the back of the horse driven by McKay. About the first words he spoke told of his work in running down a supposed lumber thief, and of his placing McKay under arrest for that charge. In fact running down a supposed lumber, thief, and of his placing McKay under arrest for that charge. In fact he did not discover that the horse had a sore back until McKay and his rig reached the station and Detective Phillips took off the harness. Then it was determined to make the charge that of cruelty to animals, to allow time in which to dig around and find evidence in the petty larceny case. The complaint in the latter case was not filed until Tuesday afternoon, and even then it was not given out by the officers, but Auble, who has sworn to the complaint, gave it away while on the witness stand.

The location of the sore was described by each witness as in a different place, ranging from the mane back to a point about half-way from the mane to the flank. All agreed that it was an inhuman act to use the horse for work of any kind in its present condition.

the mane to the flank. All agreed that it was an inhuman act to use the horse for work of any kind in its present condition.

Before the prosecution closed its case the jury was taken down stairs to examine the horse, but not before the attorney for the defendant had interposed an objection, alleging as a reason for the objection that the horse had been in the custody of the police and they had given it no attention, and that the sore was in a worse condition than when the horse was brought into the station. Justice Owens sat down on the attorney hard and allowed the jury to go to see the animal.

Sensational charges were preferred by the defendant against a detective. McKay told of his wanderings the night he was arrested and charged that Detective Phillips had offered to let him go free if he would give Phillips \$199, which was to be used among his alleged chemies to keep them quiet. McKay said he spurned the offer and marched to jail. It was when the officer and the prisoner stopped at the corner of Third and Hill streets, he says, and when he asked to be allowed to walk to the station without the handcuffs on his wrists, that the alleged offer was made.

It is alleged that Dorn did not go away alone, but was accompanied by a woman.

Dorn has been hoseman and callman in Engine Co. MR. GAGE'S NOMINATION.

T. Gage of Los Angeles was acclamation yesterday. This result was not unexpected. Mr. Gage's nomination has been in the nature of a foregone conclusion for several weeks past, and since the assembling of the virtual certainty-as certain as anything political is likely to be in this uncertain world. His nomination yesterday was merely the formal indorsement of the expressed will of a majority of the Republican party in the State, as indicated in the action taken at the primaries.

Mr. Gage's ante-convention campaign has been one of the most brilliant ever made by a candidate in the history of politics in California. It has been, too. a personal campaign, to a large extent. Mr. Gage announced frankly, at an early date, that he was a candidate for the office of Governor. In the face of a considerable amount of senseless and unwarranted opposition within the ranks of his own party, Mr. Gage persisted in his candidacy, and won his way step by step, solely on his own merits and the merits of the great cause of Republicanism, which he so truly and faithrepresents. The opposition steadily declined. It had no substantial basis of political expediency or common sense, and it disappeared before the steady progress of Mr. Gage's candidacy, because it had no practical

excuse for existence. When once the Gage boom had acquired momentum, it swept the State. Nothing approximating its rapid growth had ever before been witnessed. It had no artificial aids, but grew solely on its merits, and on the great popularity of Mr. Gage in all parts of the State. Thus Mr. Gage was enabled to go into the convention with enough votes to assure his nomination, and with some to spare.

His remarkable strength before the convention is in some degree an indication of his strength before the people. He will secure the undivided vote of the Republican party of California at the polls in November. In addition, he will receive a large number of votes om conscientious Democrats, who are disgusted with the manner in which their party has been betrayed into the hands of Populism. There are thonsands of Democrats in California whose principles will not permit them to vote for Maguire, the polygot candidate, the tattooed man, who has been all things unto all men, according as he was led by his peculiar ideas of political expediency. These conscientious Democrats will either refrain from voting altogether, or will vote for Mr. latter course, believing Mr. Gage to this year. be a safe, conservative, and honest the high office to which he aspires. R. J. WATERS FOR CONGRESS.

The Republican Congress Convention for the Sixth District, in nominating convention on Tuesday it has been a R. J. Waters as a candidate of this district for Congress, has chosen wisely. Mr. Waters is a man of strong personality, a man of ripe judgment, of wide experience, and of large executive ability. He will bear the banner of the Republican party in this district to certain victory. He will serve the people of this district ably and well. He will make a record in which his constituents may feel a just pride.

With Mr. Waters in Congress as our representative, we may rest safely in the assurance that our interests will Republicans of the Sixth District. It can be easily and certainly accomplished if the Republican voters of the district will do their duty in the cam- tory. paign and at the polls. Let the campaign be vigorous and aggressive. Although this is undoubtedly a "Republican_year," it is not by any means 'yellow dog" year, or a year in which any Republican can be elected without earnest, united and vigorous campaign work. And even if victory were aswithout concerted effort, it would be wise and expedient for Republicans throughout the district to do all in their power to swell the majority for Mr. Waters to the largest

possible proportions.

To some extent the Republican party is on trial throughout the country. The Congressional elections to be held this fall will be the first general elections held since the people placed McKinley in the executive chair of this nation, pledged to carry out certain definite principles. At the coming elections to Congress, the people of the country will be called upon to approve or condemn the manner in which the administration has discharged the duties committed to it by the people two years ago. Congressional elections following Presidential elections almost invariably result in losses for the party in control of the executive department of the national government. This is due in part to the general apathy of voters when national candidates are not up tor election, and in part to the dissatis-

faction which always follows the distribution of federal patronage. In view of these unfavorable in fluences, it is of especial importance that every Republican who believes in his party and its principles should Gage. Most of them will take the rally to the support of the party ticket Republicans can do this with unforced enthusiasm, for the Re man, worthy in every respect to fill publican administration of national affairs has been an unqualified success; and because of this fact, the commer cial and industrial depression of two years ago has been transformed into commercial and industrial activity. For enterprising Americans with ome means, Cuba, Porto Rico and the Philippines offer many inducements for the acquisition of fortunes. One of the drawbacks of these countries has been the ill effects of the climate upon those who are not accusomed to it. American enterprise and ngenuity cannot change the climate of the islands, but it can, and doubtess will, change the bad sanitation which is the main cause of the fevers and other diseases that attack outsiders who go to live there.

Some manufacturers and dealers appear to be trying to bring the war tax into disrepute with the people, by charging much more than the difference made by the necessary stamps. Thus a widely advertised preparation, made in Europe, which has hitherto een sold at a dollar a bottle, is now priced at \$1.15, although the stamp placed on the bottle only costs 3 cents. The public has a very simple means of checking such extortion, by refusing to purchase, where the price of an article as been unreasonably raised.

THEIR PATRIOTIC PRINCIPLES

GROWTH OF UNITY AND FREEDOM

Instructive Address on the Subject of Protection Against the Raising of Drafts Read and Discussed.

[ASSOCIATED PRESS DAY REPORT.] DENVER (Colo.,) Aug. 24.—The sec-nd day's session of the twenty-fourth annual convention of the American Bankers' Association was called to order by President Hendrix at 10 o'clock with practically a full attendance of delegates. A call of States came first on the day's programme, brief statements being made by representative bankers on general business sentative bankers on general business conditions. Without exception, reports

of unusual prosperity came from all parts of the country. The remainder of the session was devoted to the resolution of practica banking questions. There were four general subjects under discussion, thirty minutes being allotted for each, and only five-minute speeches being allowed.

PATRIOTIC SPIRIT IN BANKERS The discussion was opened by J. D. Powers of the First National Bank of Owensboro, Ky., who spoke in part as follows:

"Honor, patriotism, reverence, all things which our fathers esteemed as more precious than gold have not departed, but as a rich heritage have been transmitted to their sons, and stand out as preëminently in the character and acts of this generation as they shone resplendent in the days of the Revolution. Though there necessarily a distinction between days of heroism and those of patriotism, they find unity in the accomplishment of high resolves and noble purpose, when uninfluenced by the ends of vain glory, or the glamour of the dead to heroism the dead

the deed to be performed.
"So, looking first at the heroic side patriotism, we see the patriotic spirit of those who personally answer the call of their country for its defense, its protection, its honor, its glory, and its renown. Without distinction of party, place, position or section, they consecrate their lives to its glory. What is the first great care of a na-

What is the first great care of a nation about to engage in war, offensive or defensive—to look well to its finances, and to see who will sustain the government's credit. Where, and to whom, does it look?

"What spirit is invoked to work out the problem but the patriotic spirit of bankers? When grim-visaged war unrolled his wrinkled and horrid front within our happy and prosperous land the needs of the government were promptly met by the bankers of America, and they gave ungrudgingly of their gold for the promises of the nation, and continued so to do, until, in the evil hour of expediency, the then Secretary of the Treasury, foisted upon the country an emergency money which closed the door to the vaults of gold.

which closed the door to the vaults of gold.

"When the present Secretary of the Treasury made a visit to New York prior to the issuance of bonds of the government, fifteen of the leading bankers of that great financial center called in a body upon him and assured him of their patriotic desire to see a 3 per cent. loan not only floated at par, but, to enable him to make it a popular loan without fear of miscarriage, they agreed to take the whole, or any part, of the \$200,000,000 at par.

"With this splendid financial backing the Secretary issued his call for subscriptions to the bonds, and almost immediately upon its sanouncement nearly double the amount of the loan was subscribed for.

nearly double the amount of the loan was subscribed for.

"From the heights of Bunker Hill to the bloody crest of San Juan one spirit animated by love of country has pervaded our soldiers, who no difficulties deterred and no danger dismayed. Whilst our bankers in the most trying moments maintained their courage, constancy and confidence unshaken, always ready to uphold the integrity of

constancy and confidence unshaken, always ready to uphold the integrity of the country at every hazard.

"Whilst o'er us one flag must float, One song ascend from every throat, That flag, the banner of the free, That song, the song of liberty."

Robert J. Lowry, president of the bowry Banking Company, Atlanta, Ga., followed Mr. Fowers in a paper showing that bankers have ever been ready to sustain the government with their treasure and their blood. He said that if every other moneyed class paid as just a proportion of taxes as the bankers the rates of taxation would not be one-third what they are.

THE WAR MESSAGES.

W. S. Whitman of Atlanta, Ga., said in part:

I come to you from a land marked by many tombs, and whose long saddened memories are once more broken by the triumphs of her chivalrous sons, in proof of our oft-expressed loyalty to the Stars and Stripes.

"It is a war of reconciliation. Shall the poor man sneer at the rich, since he has seen the charge of El Caney led by a Roosevelt? Shall the Spacilard hate his American conqueror, who, after taking 25,000 of them prisoners, filled their entry strength." his American conqueror, who, after taking 25,000 of them prisoners, filled their empty stomachs with American food and gave them free passage home? "This, too, is a uniting war. Did you ever see such a Fourth of July as the last one? Never, since old Liberty Bell rang forth for the first time her sweet notes of freedom. I wish you had been with me at the celebration in my own city. Before that gathering of over ten thousand people there stood upon the stage as participants representatives of all classes. Then I said we want a new song, a universal anthem, and the subject of it shall be: 'God Save the Queen Under the Star Spangled Banner in My Country 'Tis of Thee Way Down South in Dixie.' This is what I call big dividends from the front. Yes, it is a divine war, for we find ourselves doubly freed in our endeavor to secure freedom to our neighbors."

Cornelius S. Pugsley, president of the West Chester County National Bank of Peekskill, moved that the following teegram be sent to the President: "The American Bankers' Association, in its twenty-fourth annual convention assembled at Denver, representing banks of every state and territory, begs most heartify to congratulate the President of our beloved country upon the successful conduct of the war, and the brilliant achievements of our army annd navy and the prospect of peace."

The motion carried unanimously.

SAFEGUARDS ON CHECKS.

SAFEGUARDS ON CHECKS. Arthur C. Anderson of St. Paul, in speaking about the "Practicable Safeguards Against Check Raising," said

that the point of danger in the matter of raising drafts was that it is the common practice to use the same set of blanks for the largest and smallest drafts, the vignette being the same, the paper identical, and the numbers consecutive—nothing about the blanks.

of blanks for the largest and smallest drafts, the vignette being the same, the paper identical, and the numbers consecutive—nothing about the blanks to indicate whether it would be drawn for a dollar or for thousands. His experiments and investigations pointed very clearly to the fact that nothing could either be printed or written on paper that could not also be removed from it. The protections now in use were by no means worthless, but singly or in combination they might be said to have been "weighed in the balance and found wanting."

If they were to get genuine protection—a protection that protects—believed they must look for it below the surface of the paper. As \$30 might be said to be the maximum amount for which drafts were bought for the purpose of alterations, he suggested a water mark "limit five hundred dollars" with such further designs worked all through the paper as to render successful cutting and patching impossible. They would thus remove the danger that lurked in all small drafts being raised to a number of hundreds or thousands. He also suggested the use of coupons indicative of the hundreds on the right hand side of the draft. If a forger found it difficult now when only a lithographic stone and paper, easily obtainable, were reseded to counterfeit a draft it was manifest that the adoption of water marked would add immensely to his problem. The manufacturer of such paper must, of course, be under the charge of some such body as the association.

The question discussed by Mr. Anderson, with the suggestions made, was referred to the executive council for such action as it may decide upon. An invitation from the Salt Lake Clearinghouse was received.

The association adjourned until tomorrow morning.

If such are the intentions of the United States government, the negotiations are very sure to be laborious, even if an undertanding

be laborious, even if an undertanding is ever arrived at. The Spaniards consider the cession of Luzon, their best and most important island, to be a death-blow to their prestige and soverlegnty in these regions, and that it would be irretrievably weakened by the presence of Americans in the heart of their colonies.

"Commercial equality with the United States in the archipelago would annul the only advantage and compensation which they might have expected to have derived for the cost and sacrifices which have been necessary to maintain their rule in the archipelago. The separation of church and state would be most unpalatable to most Spaniards, and would create great difficulties in their relations with the Vatican and the church, let alone the public religious orders in Spain, which are always disposed to side with Don Carlos against the present dynasty.

IASSOCIATED PRESS NIGHT REPORT LONDON, Aug. 25 .- The Times Madrid correspondent says: "The recent articles in the Times, rec

nending the annexation of the Philippines by America, are attracting much attention here, They are re garded as confirming current rumors about a secret agreement between the Cabinets at London and Washington for joint action in the Far East. In any case, it is feared that the raprochement which unquestionably ex its contains the germs of great inter national complications. Three months ago, when Spain suddenly found herself alone, face to face with a powerful analone, face to face with a powerful antagonist, such a prospect would have been hailed with delight, because it was believed that in a general imbroglio she would be sure to find allies. Now the political situation is better understood, and fears are expressed that in a general conflict of the great powers, whatever the result. Spain would have to pay les pots casses.

article in this sense. Trying to forecast the immediate future, it says:

"Two contingencies are possible: Either the great powers will come to an agreement about their respective spheres of influence, or there will be a great war, in which England will play a leading part against Russia and France. In the former case, Spain would lose the Philippines, because they would be included in the partition, In the latter case, England would begin by an attempt to get possession of the keys of the Mediterranean, including Ceuta and the Balearic Islands, which may be regarded as the keyhole.

"This possibility of a strugle for naval supremacy in the Mediterranean at some time in the near future, gives certain importance to reports of new

ertain importance to reports of new forts in the vicinity of Gibraltar and forts in the vicinity of Gibraltar and diplomatic correspondence there anent. Neither Spain nor England, however, can be supposed to have any aggressive designs, and if we read between the lines of certain very guarded semi-official statements we must conclude that the Spanish government has recently received from London some positive assurances on this point. Spain must it is said, maintain her elementary rights to national self-defense, but she has at present sufficient diplomatic difficulties on hand to prevent her creating additional complications."

INTEREST IN DENVER MEETING. Party for Honolulu-Orange Ship-

Railroad men here all took a deen interest in the plan wired from Denver as to settling the vexatious difference between the American lines and the Canadian Pacific. The plan to ap-point a committee on arbitration, one man to be chosen by the American roads, one by the Canadian cutter, roads, one by the Canadian cutter, and then to select a third, was thought to be a good way to get to the end of existing troubles. The railroad men were unanimous in the view—that it was an exceedingly fair proposition to make to the road which has been keeping all the others in hot water, it being one and they many, to give it a fully equal voice in the plan of settlement. It might seem as if the Canadian road were in a position to say, "Well, what are you going to do about it?" But that is not so. If all the American lines, with all their significations and all their local offices, with their immense capital and shorter haul, were to say, "We will show you a trick or two," the foreign cutter would be in a very bad hole.

But business men as well as the railroad people want an amicable settlement of the question, and it is hoped that this will be brought about at an early day.

Police Court Notes.

Frank Guerrero got drunk Tuesday night and wanted to whip his wife, bt she appealed to the officers, and Frank was locked up. He was very penitent yesterday afternoon, so Justice Morrison let him off with a twenty-day suspended sentence.

Angel Reyes, the Mexican arrested as an escape from the chain gang, was sent back to serve fifty-six days more of the sentence formerly imposed, and Justice Morrison will suspend sentence for the escape if Reyes behaves himself during that time.

The case of Long Guey, charged with grand larceny by Low On, will come up for hearing before Justice Owens this morning.

J. G. Lewis, the man who, it is alleged, struck Leon De Cells with a stone, will be tried by Justice Owens this afternoon.

A. T. Bundy was before Justice Morrison yesterday, charged by F. N. Kellogg with having disturbed the neighborhood of No. 319 South Hill street by loud talking and traducing the complainant Kellogg. Mr. Bundy entered a plea of not guilty, and will have his trial next Tuesday afternoon.

John B. Clark was arrested by Officer Sawyer yesterday morning while sleeping in a house at No. 1507 Seventh street, without the permission of the owner. Clark was arraigned in the afternoon on a charge of vagrancy, and after conviction was given a fifteen-day suspended sentence by Justice Morrison.

OFFICE OF THE TIMES,
Los Angeles, Aug. 21, 1898.
MONEY IN PLENTY. Rates for MONEY IN PLENTY. Rates for money at Omaha and other western points were never so low as now. The banks are well supplied with money, and the demand is by no means what they would like it to be. President. Yates of the Nebraska National Bank of Omaha states that loans on first-class paper are made at 5 per cent. He of Oraha states that loans on first-class paper are made at 5 per cent. He made that "the lack in the demand is due more to cautiousness of our busi-ness men than to the possession by them of sufficient money for their wants. The experiences of the last few years have been a dearly-bought les-son to nearly all the people, and they are not venturing into anything which does not promise a sure return on their money."

Association is in session at Denver this week. The secretary, in, his report, states that the tanks in the association represent a capital of over \$1.000,000,000. The great mistake some students of political economy make is jumping at the conclusion that the banks and the people are in necessary antagonism; whereas, the fact is abat the people really own the banks. They own this vist sum of money on deposit with the banks.

GENERAL EASTERN MARKETS.

[ASSOCIATED PRESS NIGHT REPORT.] CHICAGO, Aug. 24.—The Liverpool market-instead of showing sympatry with yester-day's strength here, was lower by %d for September and %d for December. That was the principal reason for a slight de-cline here at the start. The depression did not last long, and in a short time from the opening the market became quite strong. September, rising & above the previous days. did not last long. and in a short time from the opening the market became quite strong, September rising % above the previous day's closing prices. London reported good demand for cargoes on passage, and that helped things a little, but the chief reason for the strength that so quickly succeeded the first decline was the nervousness of September shorts on account of small slocks here, and the slight prospect of their speedy increase. Advices from the spring wheat region favored the expectation of continued liberal receipts. Some reports were to the effect that the results of threshing were disappointing, but such reports did not disturb the general impression that a spring wheat trop had been raised exceeding the crop of any former season. The firmness in futures was well maintained until the Paris and Antwerp markets reported for the day. Paris reported November and February wheat 80 centimes, or equal to 4½c a bushel lower, and Antwerp showed a loss of 1½c a bushel. September hooke on the weakness abroad, but firmed up a fraction just before the close. September left off %ac lower, and December declined %as on the day. Corn at the start acted in a way to gladden the hearts of the bulls, and then turned around and rended them. The early avance was due to heavy buying on damage reports from Kansas and Nebraska. Later, when these reports of considerable damage to that grain from the to ¼c higher. Provisions ruled strong because of the disappointingly small run of hoss. Packers bought heavily of lard and ribs. Pork closed 5c lower; lard gained 2½doc, and ribs rose 5c.

Mr. Gilbert was a man well known in mining circles in and around Los Angeles. He was born in Augusta, Me., December 31, 1829, and came to California in 1851, where he was soon after married, and where he had mining interests for a number of years. He was one of the pioneers of Lander county. Nevada, where he was extensively engaged in stock-raising, and where, in 1876, he was elected to the effice of County Treasurer.

very seriously injured by the bursting of the barrel of a shotgun. Young Ferry had loaded the gun and handed it to a young man to shoot doves. It is supposed that Ferry made the mistake of putting a nitro-powder cartridge into an old gun not built to withstand such a charge. When the gun was discharged, the barrel burst and a piece of the metal struck Ferry in the back. It is feared that the metal penetrated the pleural cavity.

BULL BUTTER.

OLD SOLDIERS TO BE FED ON OLEOMARGARINE.

anta Monica Veterans' Home Lets a Contract for Eighty Thousand Pounds-Protests from Dairymen, Reasons for the Change Advanced by Officials.

Some criticism has been indulged in because the managers of the Soldiers' Home, near Santa Monica, have substituted oleomargarine instead of butter at that institution. The fact that 80,000 pounds of butter a year is used at the home is quite an item, and if the product of local creameries could be used there it would help the dairymen of the section in a substantial way. Naturally those engaged in the dairy business here have taken the matter up, and no one will blame them for looking out for their interests. If there is any way to secure the trade so that it will be to the advantage of the dairy interest and of the merchants of Los Angeles, The Times will be glad to lend what aid is in its power to that end.
That is one thing. Unduly criticising and misrepresenting the facts, and the causes which led to the charge are another.

another.

To be sure of its ground The Times

To be sure of its ground The Times sent a man to the home to inquire into the whole matter.

The reporter found the Governor of he home, Gen. A. J. Smith, at his desk attending to his morning mail and other duties. In response to a request for an interview, the quartermaster, Capt. Rising, was called, and the subject discussed point by point.

In answer to the question, "What were you using before the change was made," the quartermaster produced the proposal in which the bid, was made. It reads as follows: Class D, butter, 17,000 pounds. Fresh, choice California creamery: rolls actual net weight on home scales. Each roll to weight thirty-two cunces. Packages retuined. Or, oleomargarine must be of the following proportions: 25 per cent. creamery butter, 40 per cent. neutral, 20 per cent. oleo oil, and the balance in proper proportion of cream, milk, selt and sufficient anatto for coloring the compound; thirty-two-ounce rolls; packages returned.

"That is what we were supposed to

thrive-two-dunce rolls; packages re-turned.

"I hat is what we were supposed to get. The bid for the previous quarter to furnish fresh, choice California creamery butter was at 19½ cents per

creamery butter was at 18½ cents per pound.

"We did not get it. We were getting a very inferior quality of butter. We are not experts, but we believe we were getting processed butter brought in from the East. It was not so bad until exposed to the air a few days, and then it was so rancid no one would use it. It was so impossible to get good butter that the government of the homes ordered that this quarter we ask for bids for butter or oleomargarine. A bid has been put in for butter at 22½ cents, and for the oleo at 11 cents.

"Now in all fairness look at this. The people are saved 8 cents per pound on each pound used here, 80,000 pounds a year. That is a saving of \$6400 on the one item.

we are doing here what is done at all the homes in the United States. I have been at others, at homes in the best grass countries in the world, and oleomargarine is used at them all, and for that reason we are using it here. Good butter will not be supplied. California creamery butter is now worth in Los Angeles 27% cents per pound. How can any one furnish it here at 5 cents less? The contract is for three months, and butter will not be cheaper in that time.

and butter will not time.

"How do the men like it?"

"When it first came here I put it on my own table. Maj. Upham was at lunch with me, and I thought he seemed lunch with me and butter. After the bread and butter. After

"When it first came here I put it of my own table. Maj. Upham was at stand in the with me, and I thought he seemed to enjoy the bread and butter." After lunch I asked him how he liked oleomargarine. He said he never tasted it and did not know. When I told him he had it at lunch he was surprised. The men all like it. They say 'if that is to leomargarine and the other thing butter, give us the oleo."

"You ask if it is true that the men all oa and the officers use butter? I am glad you ask me that. It has been eat oleo and the officers use butter? I am glad you ask me that. It has been so stated in the pagers. It is not true. You know the officers do not draw rations. They buy what they want, and get it where they like. As a matter of fact, every officer I know is using this oleomargarine, getting it from the commissary department. I am not built that way. What is good enough for the men is good enough for me. I confess it hurt me to see that statement in the papers. Not only the officers, but all their families are using oleomargarine, and they all like it.

"You see this blank? It is a form of requisition for rations. It is the form in every home in the United States. It is an alphabetic order. Look in the letter B. There is no butter in it. Look into letter O. There is the cleo. It is all the government of the homes contemplates we shall use.

"One word more. We did not change from choice. If we could have been supplied with choice California creametry squares we should have gone on as we were. If the dairymen have lost this trade it is not our fault."

HE. Did you read that little item about the choice of \$2 in short and carried of \$2 in slower and carried of \$2 in slower with the burgiar? Tented, in anticipation of the burgiar's return. FOREST FIRE CHECKED. Danger Now Past Except in the

Tejunga District. Of the eighty-five men who went up into the Arroyo Seco to fight fire all but thirty either came out or were on the way out yesterday. All who were engaged from the Mount Lowe head-To be sure of its ground The Times sent a man to the home to inquire into the whole matter.

further duty, and of the thirty or more in the west fork of the San Gabriel Cafica, with Mount Wilson as the source of supply, but four now remain. In the Arroyo Seco section ten men have been left at Switzer's camp, ten at Colby's and ten in the Tejunga. Supervisor Border came from the Arroyo section this afternoon. He reports the fire under control in that region. He states that the flames got into the Tejunga and for a time it looked as if the fire would get away from the men. Where the Arroyo and the Tejunga join, on Sunday last it looked as if double the force of men could not keep the flames under control, but by back-firing, and with the assistance of the wind, the fire was sistance off. Switzer's camp was rescued by back-firing, at a time when it seemed impossible to save it. The fire was stopped about a mile from the camp.

The men left in the Arroyo will have camp.

The men left in the Arroyo will have

The men left in the Arroyo will have some fighting to do yet, but the Supervisor states that they can hold in check any blaze which might now start in that section. The four men left in the west fork of the San Gabriel are there to prevent any of the rdins from being franced into a blaze. They will remain that two or three days. A forest fire is reported northeast of Pine Flats, about thirty miles from the present fire. Superintendent Newhall is arranging for men to go in to fight it.

A courrier arrived late Wednesday evening from the Tejunga district, stating that the fire was of such proportions that it would be impossible for the few men left in charge to hold it in check. The crew at Switzer's will probably be sent up in the morning.

of Burglary.

Hugh Ross, a man 70 years of age, who has lived in the vicinity of Los Angeles for twenty-seven years, was yesterday examined on a charge of burglary in Justice Morrison's court, and held in \$1000 bail to answer to the Superior Court.

Ross is a decrepit old man, and bent with age. He is a cook by occupation, but by reason of his advanced years and the attendant disadvantages he has been unable to secure employment of late. Last Sunday, according to the evidence presented at the trial, he entered the residnce of Sam Congl, at No. 726 Buena Vista avenue, while none of the family was at home, and carried off \$2 in silver and some wine. Since then the Congi home has been closely watched, in anticipa-

FORMIDABLE COMPLAINT LODGED

Mexicans Quarrel Over a Jug of the Stuff That Cheers-Electric Car Strikes a Carriage on Colorado Street-More Fire-fighters to Go

PASADENA, Aug. 24.—[Regular Correspondence.] A warrant which has hung fire for some time was issued today, to suppress an alleged public nuisance. There have been many complaints against the conditions around the stable of the National Ice Company, at the corner of Broadway and Greenstreet. These have been brought to the attention of the owners by the proper authorities and they have promised to remedy matters. It seems that they have entirely neglected to do so, however, and today a complaint was sworn to by Health Officer F. F. Rowland, and Manager C. H. Granger of the National Ice Company was ordered to appear to answer. There is a long list of powerful adjectives in the complaint, the object apparently being to make it as strong as the odors which have called it forth. As a number of prominent citizens are involved in this case, its outcome will be watched with general interest. The maximum penalty is a fine of \$300. Louis Quijada, one of the Mexican colony at North Pasadena, appeared before Judge Rossiter and charged B. T. Ochoa with invading his home and assaulting him with a knife. He saved his skin, he said, by wresting the weapon from his assailant. It appeared to have been a quarrel over a jug of wine, and the court issued a simple warrant for disturbance of the peace, instead of felony.

The Walnut Crop but Slightly Injured by the Heat.

SANTA ANA, Aug. 24. — [Regular Correspondence.] From careful inquiries among the walnut-growers of the Santa Ana Valley, it is learned that the damage to the nut crop by the recent hot spell is not near so serious as was reported. Walnuts in the Santa Ana Valley, especially where the soil is deep and a proper amount of irrigation and attention had been given them, are not damaged, and prospects are still good for a fine crop. Some little damage has been done to nuts on gravel and sandy land, where irrigation was badly needed, and they will consequently be smaller than usual, and a few nuts on outside branches, where they were exposed to the sun, were blistered, but the damage from this cause cannot be estimated at more than 2 or 3 per cent, through the entire valley. REDLAND, Aug. 24.—(Regular Correspondence.) The Redlands section of the Irrigation Propaganda held a meeting this Irrigation Propaganda held a meeting this afternoon and effected permanent organization. The officers chosen are: Dr. M. M. Hooten, president; Rev. Ira G. Sprague, vice-president; H. S. Brinkedhoff, secretary; C. H. Llenau, treasurer. Dr. J. M. Hooten and Scipio Craig were chosen delegates to the Cheyenne meeting of the National Irrigation Congress.

The following-named are appointed a committee to raise funds to send the delegates to the congress: C. H. Llenau, E. I. Martin and B. G. Burdick. A large part of the water users and those interested in the objects of the Propaganda are out of the city for the summer, and the attendance was small.

ELECTRIC POWER PLANT.

The Redlands Electric Light and Power Company has recently been seriously inconvenienced at the power-house. There has been a dearth of water all summer, and to help supply the deficiency one of the dynamos has been run by steam. The first of the week there was a cloudburst up Mill Creek Caflon, and the flood of water that poured down was so full of sediment that it could not be used in the boiler. The two dynamos might have provided a fair supply of the mysterious fluid, but a casting broke on one of them, leaving but about one-third of the plant available for service, and that is why the patrons of the company have had less light and power than usual for several days.

Canning Factory Granted a Water

Rate by City Trustees.

ANAHEIM, Aug. 24.—[Recular Correspondence.] The City Trustees met last night and granted the canning factory a rate of \$1.50 per month for water consumed. The factory uses about seven thousand gallons per day, and the rate made last night is about half that previously charged. Discussion developed the fact that the actual cost to the city of raising and delivering water is 3½ cents and that it could furnish the canning factory with its supply at less

fair profit.

The new fire alarm and patrol system was reported completed and ready for service. It will be given a test Saturday evening. Interest on city bonds to the amount of \$500 was ordered paid, and considerable routine business transacted.

LONG BEACH, Aug. 24.—[Regular Correspondence.] "The Bible a Universalist Book," was the subject of an address by Rev. Dr. E. L. Conger at the morning's session of the Universalist Summer Meeting. Among other things, Dr. Conger said: "The Bible is a universalist book, because it contains the roots of a universal religion. It teaches the fatherhood of God. The history of the Hebrew people from Genesis to the New Testament shows the evolution of the idea of one God, until it reaches the noble thought of God as father, revealed by the Hebrew-Nazarene in the New Testament. To the Hebrews was committed or revealed the doctrines that there was but one God. They stood for this against every form of polytheism during centuries of persecution, conquest and dispersions. Sometimes their thought of Him was very imperfect. They thought of Him was repetimes their thought of Him was great key, as a judge, as angry, as selfish, as vengeful. But He was always one, not many, not even three gods, no trinity. They held fast to the worship of one God, and the fruit of that loyaity is the universalist gospel of one God. The Bible is a Universalist book because it teaches the unionship and

Thomas M. Adams Killed in a Stree Fight.
[ASSOCIATED PRESS NIGHT REPORT.]

COLUMBUS, (Ga.,) Aug. 24.—Hon Thomas M. Adams, Democratic nom-inee for the Legislature has been as-sassinated at Giles, a country town in Chattahootchie county. At a political gathering a dispute between Jeff Davis, a negro school-teacher, a Democrat, and William Bagley, Popu-list nominee for the Legislature, pre-cipitated a general fight in which several shots were fired. Mr. Adams was a by-stander, and received a bul-let in the temple and one in the heart.

[John Eastwood in Rural Californian:] Ten years ago Dr. Charles Mueller purchased twenty acres of land about two miles northeast of Orange, and planted some 600 soft shell wainut trees. These were two years oid and cost him 35 cents apiece. When they came into bearing he found that he had less than fifty first-class soft shell wainut trees. The balance were soft shells of an inferior quality or paper shells.

This result, which might have discouraged many, only set him to thinking and experimenting. He imported some wainuts from Germany, which are noted for their size and productiveness, and used them as stock to bud soft shells on to. As this variety needs but little water, he has, by letting the irrigation water stand about them. killed several of his young trees. Three years ago he planted these budded trees between the seedling ones, which were planted forty feet apart, and many of them are now bearing more and larger nuts than their companions, which are nearly four times their age. It is Mr. Mueller's intention to cut out the seedling trees as soon as the budded ones get larger.

When asked what he would advise a person to do who desired to get a good welnut orchard, he said this: "In the latter part of March plant soft-shell walnuts in exactly the place you wish each tree to stand in the field. These shell downward. The soil should be well pulverized and they should be well to wind the shell downward. The soil should be well univerized and they should be well univerized and they should be well downward. The soil should be well downward. Perfect health and strength there is no substitute that can be satisfying to those who wish to enjoy life to the full. Perfect men are those who are full of that vitality which carries them on from day to day knowing that they are in no sense of the word weak or puny. They have bright eyes, firm limbs, confidence in all their powers, and they are never premature in any way. They know what full and complete pleasure is. They feel it always.

Men who are afraid that they are unfitted to satisfactorily fulfil any duty in life are miserable. The very knowledge itself makes them nervknowledge itself makes them nervous. They waste away. They get worse daily. They do not sleep. They have evil dreams and are filled with gloom. If that is your state today the sooner you alter it the better. You can again be a whole man. You can regain all your lost vitality. You can feel the fire of youth again if you will buttry. Try and try today.

POPULISTS POP.

AND THINGS.

El Hutch Quieted Their Agitation Brains and Things to Throw at the Birds-Reception Planned for Speckled Candidates for

About twenty members of the Populist City Central Committee met last night in rooms in the southwest corner of the Downey Block, and after read-ing a frevious report in which Council-men Nickell and Ashman were vigorously denounced for standing in to-se ure a reduction in the assessment of national banks, the committee pro-ceeded to name committeemen from the various precincts, lopping off and subthe arty, and with the committee especially, but who had since cast their lot with the Socialists, were decapi-

After the list of precinct committeemen had been completed, the chair proposed that each committeeman pay in \$1, to create a fund for rent, lights, etc., the committeeman to collect the dollar afterward from members of the party in his particular precinct. Committeeman Armstrong viewed the suggestion unfavorably, however, as he opined that there were quite a number who hadn't felt the thrilling touch of a silver dollar for some time

The chair wouldn't be comforted. He inted to the rooms, which greatly eded an official visit from the janitor, absence of chairs, the necessity for lights other than those which emanate from the countenances of members. called attention to the fact that the secretary needed a desk, and that the chairman would not be averse to hav-ing one of those useful appendages in order to facilitate the business of pre-siding etc.

After to facilitate the business of pro-siding, etc., etc.

After the chairman' stirring appeal several of the members produced their dollars, and a resolution was passed that each committeeman was expected to procure \$1, and that the secretary should act with the secretary of the County Central Committee in raising funds for necessary expenses of head-quarters, etc.

At this juncture, El Hutch was wafted through the open door. He quieted the agitated committeemen by the assurance that everything would be the County Central Committee a

meet, and ample funds would be provided for all emergencies: that the Populists were the "only party having brains enough to do things," anyhow, El Hutch stated that on Friday a delegation from the Silver Republicans and the Democrats would leave the Arcade Depot at 11:50 a.m. for Burbank or thereabouts, where it would meet Maguire and escort him into the city, arriving here at 1:40 p.m. He suggested that the Populists also appoint a committee to act in conjunction with the other delegation, which was done. El Hutch said that Maguire would be El Hutch said that Maguire would here Friday, Saturday and Sunda that on Friday night the Silver Repu Blean Club would entertain him at that on Friday night the Silver Republican Club would entertain him at its headquarters on Main street, and on Saturday night a reception would be tendered him at Hazard's Pavilion by the entire push and pull of the combined conglomeration. Hutch wanted committees appointed to attend the various functions, and it seemed to dawn on the members that it probably would be the proper caper, but some of them didn't know exactly what they were expected to do;

The secretary stated that by next Tuesday it would be decided whether or not a daily paper would be launched on an unsuspecting world in the interests of the Populists, which caused one of the members to suddenly wake up and fire a shot or two at the "blasted subsidized press," and the committee adjourned to meet one week from next

For these reasons it is thought a general discusion of the work in the press would tend to bring to Quebec daily delegations of persons anxious to be heard, and result in great annoyance and delay. On the most funportant questions expert testimony will be heard, and where local interests are to be seriously affected, a single representative of the interests may be heard. Beyond this the commissioners say they will be unable to grant any requests for hearings. Buefs and documents on all questions will be received and considered.
